

RESOURCES FOR ADMINISTRATIVE LAW JUDGES HANDLING CASES DURING CORONAVIRUS CLOSURES

NAALJ Members have provided the following resources on coronavirus and adjudication. If you have located resources that you think would be helpful to administrative adjudicators handling cases during coronavirus closures, please submit cite or location information for those resources to naalj@naalj.org, for us to add to this list.

- (1) The Yale Journal on Regulation’s Notice and Comment blog contains an article from the American Conference of the United States (ACUS) that catalogs how state administrative courts are handling hearings:**

<https://www.yalejreg.com/nc/how-administrative-courts-are-handling-hearings-for-now-by-jeremy-graboves/>

- (2) This ACUS webpage provides, among other things, federal administrative agencies’ policies on handling hearings during coronavirus closures, recommendations, a handbook, and best practices for using video conferencing for hearings:**

<https://www.acus.gov/coronavirus-and-adjudication>

- (3) The National Center for State Courts’ website contains links to state court COVID-19 websites, to previous and upcoming webinars on handling virtual hearings, materials on remote technology in times of crisis, materials provided by webinar panelists, and bench books and operational guides on emergency preparedness:**

<https://www.ncsc.org>

<https://www.ncsc.org/Newsroom/Public-health-emergency/Webinars.aspx>

<https://www.ncsc.org/webinar-materials>

<https://www.ncsc.org/pandemic>

- (4) **National Judicial College’s website contains information on webcasts about how courts and judges are dealing with COVID-19, and a link to a pandemic benchbook:**

<https://www.judges.org>

- (5) **The American Bar Association’s webpage Disaster Response and Preparedness contains resources for law firms and lawyers, including FEMA’s continuity of operations template and COVID- 19 mental health resources for lawyers and judges:**

<https://www.americanbar.org/groups/committees/disaster/>

- (6) **The Institute for Health Metrics and Evaluation’s website contains epidemiologic data and data driven forecasts related to COVID-19:**

<https://www.healthdata.org>

- (7) **The American Library Association’s reference website contains global data on COVID-19:**

<https://www.worldometers.info/coronavirus/>
